The Symposium is supported by:

Dear colleagues,
ladies and gentlemen,

The Wilhelm Sander Unit for Bone and Soft Tissue Sarcomas at university hospital Klinikum rechts der Isar, cordially invites you to our interdisciplinary meeting on „Bone and Soft Tissue Sarcomas: State of the Art and Perspectives 2015“.

The first day of this two-day-meeting focusses on diagnostics, radiotherapy and chemotherapy. The second day covers the surgical treatment. In particular, we address orthopedic surgeons, radiologists, pediatricians, internal oncologists and radiation therapists - reflecting the interdisciplinary approach to this difficult group of diseases.

Sarcomas are malignant tumors of the musculoskeletal system and rather rare, counting for about 2000 new cases each year in Germany. Due to this fact and their biological and clinical heterogeneity, diagnosis and treatment remain a challenge for all involved disciplines.

We are very pleased that again we can offer a comprehensive programme with nationally and internationally distinguished speakers and chairpersons and we expect a highly interesting interdisciplinary meeting.

Topics include selected issues of histopathological classification, new aspects of staging, but also new opportunities of documentation and quality control as an aspect of clinical research. New ways in drug therapy and radiation therapy are presented and discussed as well as the significance of patient follow-up.

The second day of the meeting focusses on surgical therapy. Special reconstruction techniques as well as their characteristics and results are presented and discussed in depth. The management of complications and possible solutions to them are another focus.

We would be very pleased to see you at this meeting and we are looking forward to welcoming you in Munich.

Prof. Dr. Rüdiger
von Eisenhart-Rothe

Prof. Dr. Dr.
Hans Rechl

Friday, 04/17/2015

09:50 a.m. **Welcome and Opening Remarks**
Prof. Dr. Rüdiger von Eisenhart-Rothe (Munich)

I: Diagnosis of Bone and Soft Tissue Sarcomas

*Chair: Prof. Dr. K. Wörtler (Munich)
Prof. Dr. J. Freyschmidt (Bremen)*

10:00 a.m. **Diagnostic imaging of bone sarcomas**
Prof. Dr. J. Freyschmidt (Bremen)

10:25 a.m. **New aspects of local staging in musculoskeletal tumors**
Priv. Doz. Dr. K. Holzapfel (Munich)

10:50 a.m. **The sarcoma data-base of the musculoskeletal tumor center: A valuable tool for quality control and interdisciplinary clinical studies**
Dr. U. Lenze (Munich, Basel)

11:15 a.m. **Value of PET-MRI and PET-CT of musculoskeletal tumors**
Dr. M. Henninger (Munich)

11:40 a.m. **Classification of sarcomas: From light microscopy to molecular genetic diagnostics**
Priv. Doz. Dr. K. Specht (Munich)

12:05 a.m. **Lunch and industrial exhibition**

II: Chemotherapy of Bone and Soft Tissue Sarcomas

*Chair: Prof. Dr. St. Burdach (Munich)
Priv. Doz. Dr. I. Ringshausen (Cambridge, UK)*

13:00 p.m. **Chemotherapy of bone sarcomas - "State of the Art" (Key-note-lecture)**
*Prof. Dr. St. Burdach (Munich)
Lee J. Helman (MD, USA)*

13:25 p.m. **Chemotherapy of soft tissue sarcomas in adults: indication and current status**
Priv. Doz. Dr. L. Lindner (Munich)

13:50 p.m. **Chemotherapy of soft tissue sarcomas in adolescents**
Prof. Dr. E. Kościelniak (Stuttgart)

14:15 p.m. **The value of follow-up in bone sarcomas**
Prof. Dr. St. Bielack (Stuttgart)

14:45 p.m. **Coffee break, industrial exhibition**

III: Radiotherapy

*Chair: Prof. Dr. St. Combs (Munich)
Prof. Dr. J. Dunst (Lübeck)*

15:20 p.m. **Significance of particle therapy in the treatment of sarcomas**
Prof. Dr. St. Combs (Munich)

15:45 p.m. **Radiotherapy in bone sarcomas**
Prof. Dr. J. Dunst (Lübeck)

16:10 p.m. **Pros and Cons of adjuvant and neoadjuvant radiotherapy in soft tissue sarcomas**
Priv. Doz. Dr. B. Röper (Munich)

16:35 p.m. **Closing Remarks and Organization**
Prof. Dr. Dr. H. Rechl

Saturday, 04/18/2015

08:15 a.m. **Opening Remarks**
Prof. Dr. R. von Eisenhart-Rothe (Munich)

IV: Surgical Treatment

*Chair: Prof. Dr. R. Windhager (Vienna)
Prof. Dr. R. Gradinger (Munich)*

08:25 a.m. **Biological reconstruction following resection of bone and soft tissue tumors**
Prof. Dr. R. Windhager (Vienna)

08:50 a.m. **Current status in the treatment of aggressive fibromatosis**
Prof. Dr. A. Leithner (Graz)

09:15 a.m. **Extracorporeal irradiation and reimplantation of bone sarcomas**
Priv. Doz. Dr. A. Krieg (Basel)

09:40 a.m. **Pelvic chondrosarcoma: Therapy, results and prognosis**
Prof. Dr. P. Ruggieri (Bologna)

10:05 a.m. **Extendable prosthesis versus rotationplasty**
Prof. Dr. J. Haldes (Münster)

10:30 a.m. **Surgical possibilities in the reconstruction of defects following tumor resection**
Prof. Dr. L. Kovacs (Munich)

10:55 a.m. **Relevance and treatment of tumor associated venous thrombosis**
Priv. Doz. Dr. P. Kuhlencordt (Munich)

11:20 a.m. **Lunch, industrial exhibition**

V. Management of Complications in Megaprotheses

*Chair: Prof. Dr. M. Rudert (Würzburg)
Prof. Dr. J. Haldes (Münster)*

13:00 p.m. **Modes of failure in megaprotheses**
Prof. Dr. R. v. Eisenhart-Rothe (Munich)

13:25 p.m. **Diagnostic algorithm for infected megaimplants**
Dr. J. Schauwecker (Munich)

13:50 p.m. **The infected tumor prosthesis: Ways to solve the problem**
Dr. B. Lehner (Heidelberg)

14:15 p.m. **Reconstruction by individual pelvic replacement in tumor surgery and complex implant loosening**
Dr. M. Hauschild (Munich)

14:40 p.m. **Biofunctionalization of the implant-surface in therapy and prophylaxis of infections**
Priv. Doz. Dr. H. Gollwitzer (Munich)

15:05 p.m. **Closing remarks**
Prof. Dr. R. von Eisenhart-Rothe (Munich)

15:10 p.m. **End of Conference**
