Hands-on Spectral CT Workshop

We would like to invite you to the Hands-on Spectral CT Workshop that the Klinikum rechts der Isar (Technical University Munich) is offering in association with Philips Healthcare.

09 - 10 November 2018

Institute of Diagnostic
and Interventional Radiology

This Hands-on Workshop will allow Radiologists and related professionals to explore and deepen their knowledge of Spectral CT technology with practical cases, hands-on training and tips from experts.

Because it is a personalised Workshop, places are limited.

Register now!

www.ctworkshops.de

This Hands-on Spectral CT Workshop includes:

Basic Spectral CT - Physics
Workflow of the IQon CT imaging
As well as Practical Cases,
Hands-on Training and Expertise
Tips on:

- Cardiovascular applications
- Head and Neck
- Neuroradiology
- Metal Artefact Reduction
- Musculoskeletal cases
